

New API-RP755 ANSI Standard for Lighting

Fatigue Risk Management Systems for Personnel in the Refining and Petrochemical Industries

ANSI/API RECOMMENDED PRACTICE 755
SECOND EDITION, DECEMBER 2018

4.5 Work Environment

To promote alertness, indoor work spaces occupied by personnel covered by this document should be well lit using lighting sources positioned to avoid glare and eye strain (see API RP 540 for guidance). However, light sources at night should be selected to minimize circadian system disruption.
