

For Immediate Release:

April 8, 2018

Stoneham, Mass.

Circadian Technologies, Inc. is pleased to announce their participation at the premier conference for emergency medical services personnel, Navigator 2018, taking place April 24-26 in Las Vegas.

On April 25, Circadian representatives Andrew Moore-Ede (Director, Client Services) and [Garrie Wright](#) (Emergency Services Consultant) will present the latest research on circadian rhythms and the effects of blue light. Attendees will learn how emergency services organizations can use light to maximize employee wellness while mitigating risk.

Also slated for April 25, Circadian Vice President of Operations [Bill Davis](#) and Wright will present "Shiftwork: How to Create a Healthier, Happier and More Efficient Workplace."

Circadian will be exhibiting at Booths 405 and 504, with representatives available during all conference days to provide further information to attendees and answer any questions they may have.

To learn more about Circadian, or to set up an onsite meeting with a Circadian representative during Navigator 2018, email Ed Williams at ewilliams@circadian.com.

About Circadian®:

CIRCADIANTM is the global leader in providing 24/7 workforce performance and safety solutions for businesses that operate around the clock. Through a unique combination of consulting expertise, research and technology, software tools and informative publications, CIRCADIANTM helps organizations in the 24-hour economy optimize employee performance and reduce the inherent risks and costs of their extended hours operations.

For over 30 years, CIRCADIANTM has been the leading global provider of health, safety and productivity solutions to the 24/7 operations of over half the Fortune 500 and many other international companies. Our science-based solutions boost productivity, reduce errors and injuries, decrease absenteeism and employee turnover, and reduce health care costs. Learn more at circadian.com.

About Circadian® Light:

CIRCADIANTM Light is a member of the worldwide CIRCADIANTM group of companies, bringing health, productivity and safety solutions to the 24/7 business workplaces around the globe.

Born out of breakthrough research on human circadian clocks at Harvard Medical School, CIRCADIANTM Light produces intelligent circadian white light fixtures which regulate the dosage and timing of bio-active blue light to increase human health and productivity throughout the 24/7 day-night cycle.
